PROFESSIONAL SUMMARY

MERN-Stack Developer skilled in **React.js, Node.js, Express.js, PostgreSQL (Supabase), Docker, and CI/CD pipelines**, with experience delivering scalable web applications, dashboards, and responsive websites.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js, Node.js, C++

Databases & Backend: Supabase, MongoDB, PostgreSQL, Prisma ORM, MySQL (academic)

UI & Styling: Tailwind CSS, ShadCN UI, Ant Design, Sass, HTML5, CSS3

State & Data: Zustand, Redux, TanStack Query, React Hooks, GraphQL

Tools & DevOps: Docker, GitHub Actions (CI/CD), JWT Auth, REST APIs, Git, NPM, Webpack, Vite, Agile/Scrum, Unit Testing, Code Reviews, Full-Stack Development

Experience

Voiaxis Ltd

June 2024 – August 2025

Full-Stack Developer

Hyderabad, India

- Built an advertisement management platform (ads.jamme.app) from scratch, scalable for 10K+ advertisers, with modules for campaign creation, collaboration, and analytics.
- Developed the **frontend in React.js** with shadcn UI and TanStack Query, optimizing API calls and reducing dashboard rendering time by **30%**.
- Contributed to the **backend with Node.js/Express and Supabase**, defining API contracts, data models, and integrating authentication for secure operations.
- Containerized** platform with **Docker**, streamlining local development and enabling **faster deployment cycles**.
- Delivered** real-time reporting dashboards, enabling customer support teams to troubleshoot campaign issues **40% faster**.

Avisoft

Jan 2024 – May 2024

Full-Stack Developer Intern

Chandigarh, India

- Contributed to **live client-facing projects** using React.js, Node.js, Express.js, and JavaScript, strengthening skills in full-stack application development.
- Assisted in designing and optimizing **responsive frontend interfaces** with React.js, improving usability and reducing rendering issues.
- Supported the development of **RESTful APIs with Node.js/Express**, ensuring smooth data flow and reliable integration with frontend modules.
- Collaborated with peers in an **agile environment**, participating in sprints and code reviews to enhance product quality and delivery speed.

Personal Projects

Kanban Board CLI + NPM Package

[GitHub Repository](#)

- Built as a **pnpm monorepo** with CLI logic, synced UI templates, and a Vite example app.
- Published to **npm with npx support**, enabling instant setup and usage.
- Implemented drag-and-drop tasks, typed hooks, and automated folder generation for scalable project setup.

Education

Rayat Bahra University

2020 – 2024

B.Tech in Computer Science

Chandigarh, India
